

## **The Health and Safety of our Team and You is our absolute priority.**

At APCO we understand your concern about COVID-19 and want to assure our customers and the wider community that APCO Service Stations and Café 24-7 are proactively taking measures to ensure that your local APCO continues to remain a safe place to visit.

While we are monitoring and acting on government advice, we are also getting on with the job - just like you. By practicing good hygiene, endeavouring to keep our community safe and following professional health advice as we will all face these challenges together.

We have introduced precautionary measures so you can continue to visit our stores with the cleanest and healthiest environment possible.

- We're being extra attentive at cleaning and sanitising more-often and this remains our No.1 Priority, to ensure a cleaner work environment.
- As a temporary precautionary measure, we have adopted health recommendations not to fill re-usable coffee cups.
- We would be grateful if you could pay by Card, although we will still accept your cash.
- We are doing our utmost to work with our supply chain to ensure we can always provide hand sanitizer for our team and customers – just ask our friendly team members if you'd like to sanitize your hands, or use our bathrooms.
- We have directed all APCO staff members displaying any symptoms of illness to remain at home as a safety precaution and all employees returning from overseas travel will self-quarantine at home according to Government health regulations.

Our customers can feel confident and safe to shop at APCO knowing that their health, safety & well-being is our highest priority.

Thank you for your continued support during this time and choosing to shop at your local APCO.

Sincerely,

**APCO Café 24-7 Team**
